

Junior Repair Technician

Mobile Instrument Service & Repair (MISR) is a Canadian company that has been in business since 1982. As Canada's largest surgical instrument repair company, MISR is committed to being the comprehensive partner for surgical instrument repair and preventative maintenance.

We are seeking a Junior Repair Technician for full-time employment at our Oshawa-based National Repair Centre with a start date of Tuesday, October 13, 2015.

This position reports directly to Master Repair Technician who will serve as mentor during the apprentice phase. Career progress toward intermediate and senior repair technician status will be encouraged.

A Junior Repair Technician will have following responsibilities:

- Work under direct supervision; but ability to work independently once trained
- Receiving and decontamination of incoming surgical instruments
- Preparing instruments for the repair process, taping for color coding etc.
- Acid etching and other instrument marking
- Removal of insulation and or previous color coding
- Packaging and shipment of repaired instruments back to customers
- Refinishing of instruments, matt, satin, polished
- Bead Blasting
- General instrument minor repair
- Other various tasks as request by the Master Repair Technician or General Manager

Suitable candidates will possess the following skills and experience:

- High school diploma
- Good interpersonal skills and ability to work in a team environment
- Experience working with machinery; ability to follow instructions and safety protocols

Remuneration for this position will be based upon:

- 37.5 hours/week
- Salary review after three month probation
- Two weeks of paid vacation
- Full benefits package (after three months)

Please send a cover letter and resume to mikemerrick@mobileinstrument.ca. Only short-listed candidates will be contacted. No phone inquiries please.
