

Junior Repair Technician

Mobile Instrument Service & Repair (MISR) is a Canadian company that has been in business since 1982. As Canada's largest surgical instrument repair company, MISR is committed to being comprehensive partner for surgical instrument repair and preventative maintenance. **We are seeking a Junior Repair Technician for immediate full-time employment in our Oshawa-based National Repair Centre.**

This position reports directly to Master Repair Technician who will serve as a mentor during the apprentice phase. Career progress toward intermediate and senior repair technician status will be encouraged.

A Junior Repair Technician will have the following responsibilities:

- Work under direct supervision, with the ability to work independently once trained
- Receiving and decontamination of incoming surgical instruments
- Preparing instruments for the repair process, taping for color coding etc.
- Acid etching and other instrument marking
- Removal of insulation and or previous color coding
- Packaging and shipment of repaired instruments back to customers
- Refinishing of instruments, matte, satin, polished
- Bead Blasting
- General instrument minor repair
- Other various tasks as requested by the Master Repair Technician or General Manager

Suitable candidates will possess the following skills and experience:

- High school diploma
- Good interpersonal skills and ability to work in a team environment
- Experience working with machinery; ability to follow instructions and safety protocols

MISR offers a competitive remuneration commensurate of experience ranging from \$40K-\$50K plus profit sharing and benefits package, including:

- Two weeks of paid vacation
- Full benefits package (after three months)
- Salary review after three month probation

Please send a cover letter and resume to careers@mobileinstrument.ca. Only short-listed candidates will be contacted. No phone inquiries please.
